

ABOUT US

As an organization committed to making a difference in the fight against the fentanyl crisis, we serve as a bridge connecting resources for those impacted by addiction.

Through our comprehensive approach to addressing addiction and providing support, we strive to make a positive impact on individuals, families, and communities affected by fentanyl addiction. Join us in our mission to save lives and create a future free from the devastating effects of this epidemic.

Every day, countless lives are shattered by the devastating impact of addiction, and the threat of fentanyl looms larger than ever before. It's not just about the present; it's about securing a better future for generations to come. Your support can make a world of difference in the fight against this epidemic.

By donating to our organization, you're not just giving money — you're giving hope. Your contribution enables us to provide critical resources, support services, and education to those affected by addiction, empowering them to reclaim their lives and build a brighter future.

Together, we can turn the tide against fentanyl and ensure that no more families have to suffer the pain of loss. Your generosity can make a tangible impact on the lives of individuals and communities struggling with addiction, offering them a lifeline of support and hope.

CONTACT US

We encourage you to get involved in anti-Fentanyl efforts and support those affected by opioid misuse. WE must take every opportunity to spread the word to prevent Fentanyl-related overdose death and poisonings from claiming scores of American lives every day.

WHAT WE DO

Resource Navigation

We provide guidance and support in navigating the complex landscape of addiction treatment and recovery resources, helping individuals and families find the assistance they need.

Education and Awareness

Through community outreach, workshops, and educational initiatives, we raise awareness about the dangers of fentanyl abuse and empower individuals with knowledge to make informed decisions.

Advocacy and Policy

We advocate for policy changes and increased funding for addiction prevention, treatment, and recovery services, working to address systemic barriers and improve access to care for those in need.

INSPIRED BY LOSS, DRIVEN BY PURPOSE

In the wake of a devastating loss that shook his world, Coach Vonn Webb, former High School State Champion and Division I Men's Basketball Coach, found a new purpose. On May 10, 2022, Coach Webb received a heart-wrenching call that every parent fears – his youngest son, Taelin, had tragically lost his life to an accidental fentanyl overdose at just 26 years old. Taelin, a standout athlete with dreams of playing in the NFL, was disciplined, passionate, and in peak physical condition. The news of his untimely passing left Vonn with unanswered questions and an overwhelming sense of grief.

Driven by his son's memory and the desire to prevent others from suffering a similar fate, Vonn decided to use his public platform and voice to sound the alarm about the dangers of fentanyl. With the support of his players and community, Vonn is on a mission to educate others about the deadly consequences of fentanyl abuse and provide support to those affected by addiction.

Through his personal journey of loss and resilience, Vonn launched a nonprofit organization dedicated to raising awareness and bridging resources for individuals impacted by the fentanyl crisis. His goal is to honor Taelin's memory by making a meaningful difference in the lives of others and preventing further tragedies. Join us in our mission to educate, support, and advocate for change in the fight against fentanyl addiction. Together, we can save lives and build a brighter future for our community.

~ Founder Vonn Webb and son Taelin who tragically passed away from overdose

FACTS ABOUT FENTANYL

Illicitly manufactured fentanyl (IMF) is available on the drug market in different forms, including liquid and powder. Fentanyl-laced drugs are extremely dangerous, and many people may be unaware that their drugs are laced with fentanyl.

Just 2 milligrams of Fentanyl, equal to 10-15 grains of table salt, is considered a lethal dose.

50x

Stronger than heroin

100x

Stronger than morphine

Synthetic opioids like fentanyl contribute to nearly **70%** of overdose deaths. Even in small doses, it can be deadly. An estimated **107,543** Americans died of drug overdoses in 2023, according to the Centers for Disease Control and Prevention.

150

Over 150 people die every day from overdoses related to synthetic opioids

DEA LAB TESTING REVEALS THAT

Fake prescription pills are on a rise that contain fentanyl and are more lethal than ever before.

pills contain a potentially lethal dose.
